I. TEMPLATE RESEARCH PROPOSAL

a) Covering page and abstract

- title of the proposal;
- name and affiliation of the applicant;
- date of submission; and
- abstract - a single paragraph summary of the proposal

b) Statement of Problem

- Literature review:
 - Review of theories that directly relate to the research topic
 - analysis of previous research of other authors in this issue/problem (in the World and in Vietnam)
- Previous research of the author in this field
- Research gap
- Problems/Issue
 - A description of the problem to be investigated
 - The scientific and policy relevance of the problem to be investigated.

c) Objectives

- General objectives – overall aims of the research
- Specific objectives – the elements of the research which are directly addressable by the methodology

d) Originality of the research

e) Scopes of research

f) Research Methodology

Research design and procedures to be followed to achieve each research objective. That could be:

- the hypotheses to be tested or research questions to be answered;
- the analytical framework that indicates how theory is going to be applied to test hypotheses or answer research questions;
- the variables or factors to be measured or otherwise addressed by the research;

- where applicable, a description of the population and samples to be used in data gathering, including explanations of sampling or selection procedures;
- the methods to be applied in collecting primary and secondary information, indicating instruments to be used, and sources of information. If draft questionnaires are available, those should be attached; and;
- the procedures and techniques for processing and analysis of information.

g) Scientific activities

- Data collections
- Surveys/investigations
- Seminars/conferences/workshops international and domestic
- Others activities

h) Scientific significations

i) Timetable

This section should include a schedule of activities for the duration of the project. The maximum length of the research should not exceed a period of 24 months.

j) Personnel:

- Prior experience and training of the researchers;
- Role and responsibilities of each member of the research team

k) Budget

In this section you are required to present a detailed budget which should not exceed 200 million VND.

l) Expected results (*the most important!*)

1 or 2 publications on journals (ISI/SSCI, SCOPUS, ABS, ABDC)

II. SCIENTIFIC CURRICULUM VITAE

Principal investigator and others

Full name:

Institution:

Position:

Address:

Tel:

Fax:

Email:

1. Educations:

2. Professional experiences:

3. Research:

a. Publications:

i. International journals

ii. Domestic journals

b. Other research experiences (selected funded research activities, conferences, editor for international journals...)
