

# UEH-Clarivate Research Week

23-27 March 2026

Join us for a special three day online mini fair designed to help UEH researchers unlock smarter, faster, and more confident research workflows. Whether you are conducting a literature review, preparing a manuscript, or exploring new funding opportunities, these hands-on sessions will equip you with practical skills you can use immediately.

**23 March 2026 (Monday)**  
**9 - 10am**

## **1. Efficient Literature Review Using Web of Science**

Kickstart your research with confidence. In this session, learn how to navigate the Web of Science to find credible, high-quality literature quickly—using smart search, advanced filters, citation pathways, and export options to support your review or thesis. Perfect for anyone who wants to save time while improving the quality of their research sources.

**24 March 2026 (Tuesday)**  
**9 - 10am**

## **2. Choosing the Right Journal & Avoiding Predatory Publishers**

Publishing your work starts with choosing the right journal. This webinar shows you how to evaluate journals using Web of Science and Journal Citation Reports (JCR), identify reputable outlets, and avoid predatory traps. Get practical tips to boost your chances of successful submission and ensure your research is placed where it matters.

**27 March 2026 (Friday)**  
**9 - 10am**

## **3. Show me the money! Finding funding in Pivot-RP**

Looking for grants? This hands-on session will guide you through Pivot RP so you can quickly discover opportunities relevant to your discipline. Learn how to claim your profile, create personalized alerts, build shared lists, and track calls with your team. Ideal for early career and established researchers planning upcoming proposals.
